Data Analysis Competition (DAC) 2021

Frequently Asked Questions :

1. In the question sheet stated that there are 10.000 customers but we have many more numbers of rows? What does it mean?
- The amount of the customers are based on the unique of the variable "buyer_id" with the range of ID 0-10.000

2. There are 2 missings variables in "test.csv", what should we do?
- If you think you find inconsistent information regarding the data test.csv and train.csv, you are required to make a decision on your own and give your justification why you take such an action.

As a committee, we are so sorry for the inconvenience, there are some errors in variable "dealing" at "train.csv" and it has been fixed by the committee.
Thank you so much for your understanding and you need to download the newest data that have been uploaded at 11.00 A.M GMT+7.

For all the participants, just ignore the countdown in the website and the submission deadline is the same as stated in the question sheet at 23.59 PM GMT+7 19th July 2021.
